

Carbon Reduction Plan

Legacy Supported Living

Reporting Period:
2025 (January to December)

Produced with the support of

LITMUS
Sustainability 

Our Commitment to Net Zero

Legacy Supported Living is committed to achieving Net Zero emissions by 2050.

Baseline Year

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2025 (January to December)

Additional Details relating to the Baseline Emissions calculations.

Legacy Supported Living's baseline emissions include Scope 1 and 2 and the mandatory Scope 3 categories under the PPN 006 standard. We have also voluntarily reported our Fuel and Energy Related Activities emissions in our Scope 3.

The Stationary Combustion activity category was not applicable to our organisation in our baseline year because we do not have gas on our site. Business Travel includes all employee mileage. As we do not sell physical products, we do not have any Downstream Transportation emissions.

To better reflect our real-world environmental impact, our commuting emissions included estimated homeworking, and we used life cycle emission factors for Scope 3 activities wherever possible.

Some emissions in our baseline year were calculated using estimated volumes and/or spend-based data where more accurate information was not available. We are committed to continuous improvement in our emissions data, and recalculation of previous years will be implemented in future reports if necessary to maintain an effective base year comparison.

Emissions	Total (tCO ₂ e)
Scope 1	0.00
Scope 2	0.56 location-based N/A market-based ¹
Scope 3	16.00
Total Emissions	16.56 location-based
Emissions Intensity	1.10(tCO ₂ e/ individuals helped)

¹ Market-based emissions take into account electricity purchasing choices (e.g. a renewable tariff). Location-based emissions are calculated using the average emissions intensity of the electricity grid, regardless of purchasing choices.

Baseline Year Emissions Breakdown

Scope 1	Tonnes CO ₂ e ²
1.1 Stationary Combustion	0.00
1.2 Mobile Combustion	0.00
1.3 Fugitive Emissions	0.00
1.4 Process Emissions	Excluded (not applicable)
Scope 2	
2.1 Electricity (location based)	0.56
2.1 Electricity (market based)	N/A
2.2 Heat and Steam	Excluded (not applicable)
Scope 3 (Upstream)	
3.1 Purchased Goods & Services	Excluded (applicable but not reported)
3.2 Capital Goods	Excluded (applicable but not reported)
3.3 Fuel & Energy Related Activities	0.22
3.4 Upstream Transportation & Distribution	0.01
3.5 Waste Generated in Operations	0.01
3.6 Business Travel	13.68
3.7 Employee Commuting & Homeworking	2.09
3.8 Upstream Leased Assets	Excluded (not applicable)
Scope 3 (Downstream)	
3.9 Downstream Transportation & Distribution	0.00
3.10 Processing of Sold Products	Excluded (not applicable)
3.11 Use of Sold Products	Excluded (not applicable)
3.12 End-of-Life Treatment of Sold Products	Excluded (not applicable)
3.13 Downstream Leased Assets	Excluded (not applicable)
3.14 Franchises	Excluded (not applicable)
3.15 Investments	Excluded (not applicable)

² Due to rounding, breakdown figures may not add up exactly to the total stated emissions.

Current Emissions Reporting

Current Year: 2025 (January to December)

Additional Details relating to the Current Year emissions calculations.

There were no changes in methodology in between our baseline and current year emissions.

We are committed to continuous improvement in our emissions data, and recalculation of previous years will be implemented in future reports if necessary to maintain an effective base year comparison.

Emissions	Total (tCO ₂ e)
Scope 1	0.00
Scope 2	0.56 location-based N/A market-based
Scope 3	16.00
Total Emissions	16.56 location-based
Emissions Intensity	1.10(tCO ₂ e/ individuals helped)

Current Year Emissions Breakdown

Scope 1	Tonnes CO ₂ e
1.1 Stationary Combustion	0.00
1.2 Mobile Combustion	0.00
1.3 Fugitive Emissions	0.00
1.4 Process Emissions	Excluded (not applicable)
Scope 2	
2.1 Electricity (location based)	0.56
2.1 Electricity (market based)	N/A
2.2 Heat and Steam	Excluded (not applicable)
Scope 3 (Upstream)	
3.1 Purchased Goods & Services	Excluded (applicable but not reported)
3.2 Capital Goods	Excluded (applicable but not reported)
3.3 Fuel & Energy Related Activities	0.22
3.4 Upstream Transportation & Distribution	0.01
3.5 Waste Generated in Operations	0.01
3.6 Business Travel	13.68
3.7 Employee Commuting & Homeworking	2.09
3.8 Upstream Leased Assets	Excluded (not applicable)
Scope 3 (Downstream)	
3.9 Downstream Transportation & Distribution	0.00
3.10 Processing of Sold Products	Excluded (not applicable)
3.11 Use of Sold Products	Excluded (not applicable)
3.12 End-of-Life Treatment of Sold Products	Excluded (not applicable)
3.13 Downstream Leased Assets	Excluded (not applicable)
3.14 Franchises	Excluded (not applicable)
3.15 Investments	Excluded (not applicable)

Emissions Reduction Targets

We have committed to a long-term target of achieving net zero by 2050. In practice, this equates to a 90% absolute reduction in Scope 1, 2 and 3 emissions by 2050 from our 2025 baseline. The remaining 10% of emissions will be balanced by emissions removals to achieve net zero.

Scope	Baseline Year (2025)	Current Year (2025)
Scope 1	0.00	0.00
Scope 2	0.56 location-based N/A market-based	0.56 location-based N/A market-based
Scope 3	16.00	16.00
Total	16.56 location-based	16.56 location-based
Emissions Intensity	1.10(tCO ₂ e/individuals helped)	1.10(tCO ₂ e/individuals helped)

Carbon Reduction Projects

We are committed to taking action to bring down our emissions in-line with our near-term and long-term targets. A materiality analysis of our baseline and current year emissions, showing the key contributors to our carbon footprint, is shown in the chart below.

Initiatives

To keep on track to our targets we are committing to implementing the following initiatives in future:

Measure Description	GHG Category
<p>Data Improvements</p> <p>Owing to limited data availability, certain areas of our baseline, specifically our electricity and waste data, were calculated using industry averages or proxy data. While these represent only a minor share of our overall footprint, we aim to improve our data quality, and therefore the accuracy of our greenhouse gas inventory, year on year.</p> <p>We will also explore strategies to improve data collection for the most material aspect of our operations: the travel associated with our team’s visits to clients.</p>	<p>Cross-cutting ▾</p>
<p>Driver Efficiency</p> <p>As was mentioned previously, the largest overall area of impact is our business travel, which accounts for over 80% of our annual emissions. Alongside the data improvements, we are exploring other solutions to support our team in a more efficient form of travel, including the potential offering of further training to support safe and fuel-efficient driving. These courses can lower per mile emissions by between 10 and 20%, saving an estimated 1.5tCO₂e per annum.</p> <p>We also promote the use of public transport wherever feasible for our members of staff, and encourage these forms of transportation for the people we help.</p>	<p>Business Travel ▾</p>

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of Legacy Supported Living:
